OUR SCHOOLS.

Last week the closing exercises of the Male and Female Academies came off. No young ladies were sent out with "finished education" to go forth into the world conquering and to conquer silly young men, and no young gentlemen were dignified for a brief moment with the high-sounding title of A. B. or A.M., but we have no doubt that several of are about as well prepared to graduate have packed away their diplomas in their trunks, within the past two weeks, to show with pride to the "old folks at

The high regard and interest felt by the citizens of Newberry for the Female Academy was strikingly exhibited by the overwhelming attendance on the CLOSING EXERCISES Temperance Hall Tuesday and

Wednesday nights. Long before the appointed hour for beginning, crowds had gathered in the Hall. Some of the cut away the briars and smooth it off a sterner sex, who, intent on keeping cool, had gone early and ensconced themselves by the windows, "where the gentle breezes blow." soon had to take back seats against the rear wall. A few of the lords of creation, howevertotally unconscious (of course) that ladies near the door were standingkept their faces set like flint toward the stage, while some polite bachelors ran out and hunted up additional chairs. About five hundred persons were present. Our limited space precludes the possibility of comment in detail upon the exercises; but we give the programme, with the single remark that the entire performance did honor to the participants.

THE COLOSSAL BRONZE STATUE OF VICTORY which stands in the Park, at Lowell, before the tomb of the first soldiers that fell in the revolution, is a lasting and beautiful tribute of art. It is one of the first objects sought by strangers visiting our sister city, which indeed many visit purposely to see this elegant object of high art. It was obtained from the King of Bavaria by Dr. J. C. Ayer, to whom his majesty was especially gracious in acknowledgment of what his remedies are reputed to have done for the suffering sick. It was donated by the Doctor to the City of Lowell as a permanent and speaking emblem of the victories both of Science and Arms.-Hagerstown (Md.) Press.

MARIA DE MEDICI.-In a narrow, wretched little street in the famous city of Cologne, and within a stone's throw of its magnificent cathedral, stands a mean, low, weatherbeaten house, which is one of the land-marks of history, for here died in squalid misery one of the most famous women of which history contains any record. She was driven out of France by her son and became a wandering fugitive. In succession England Germany and Switzerland drove her away from their confines, till at last, descried by everyone, sick and dying, she found her way to Cologne, and there, in a wretched tenement, perished, almost of starvation and neglect, the wife, the mother, the daughter of a king; what would she have given in her dire extremity for a paper of Duryeas' Improved Corn Starch—but though she could not procure it you can get it and Dur-yeas' Sauin Gloss Starch by inquiring of any respectable grocer. #### What the Bilious Require.

Since torpidity of the liver is the chief cause of its disorder, it is evident that what the bilious require is an alterative stimulant which will arouse it to activity, an effect that is followed by the disappearance of the various symptoms indicative of its derangement. Hostetter's Stomach Bitters invariably achieve the primary result mentioned, besides removing the constipation, flatulence, leartburn, yellowness of the skin and whites of the eyes, pain in the right side and under the right shoulder, nausea, vertigo and sick headache, to which bilious invalids are pecuciarly subject. As a remedy for chronic indi-gestion, mental despondency and nervousness the Bitters are equally efficacious, and as a renovant of lost vigor, a means of arresting premature decay, and a source of relief from the infirmities to which the gentler sex is peculiarly subject, they may be thoroughly
